

## “Spectra” Science Exhibition 2018 at the Gateway Collage – 07 April 2018

The Department of Biotechnology enthusiastically contributed to the “Spectra”, science exhibition which was held at the Gateway Collage, Negombo on 07<sup>th</sup> April 2018. Very interesting and informative exhibition stall was organized by the department members covering several areas including demonstrations on Techniques in Plant Tissue Culture and Culturing Microbes and colourful exhibits displaying information on DNA Fingerprinting and Genetically Modified Organisms (GMOs). The exhibition was opened for the school students in many government and international schools in the region.

Final year students of the department; Mr. AJYAD Sunil, Ms. UPE Arachchi, Ms. KGOS Kuruwita, and Ms. HANR Samindi conducted the stall guided by Academic supportive staff members; Ms. BNK Rajapakshe and Mr. DP Nagahawatta. The event was organized by Dr. BLWK Balasooriya, Head/Department of Biotechnology on an invitation from the Principal, Gateway College, Negombo.
